SKILLS

HTML	Angular
CSS	Node.js
Gulp	Express
SCSS/SASS	Photoshop CC
Javascript	Illustrator CC
SQL	Git & Github

PROJECTS

GoPro.com Clone - SANE Stack Application

Dec 2016 | fopro.me

- Created and queried SQL database to populate views with product information and images.
- Strived for pixel-perfect clones of cameras view and product detail view using Sass, Gulp, and HTML.
- Pair-programmed to implement shopping cart, and credit card payment with Stripe.

Order Hound - SANE Stack Application

Nov 2016 | orderhound.net

- Re-designed March 2017
- Developed small business solution to find orders in production.
- Used SANE Stack, Passport, and SQL database to allow users to sign in, add and search for orders.
- Designed logo, style guide, and comps in Illustrator and duplicated with HTML/Sass.

Fetch Pet - HTML/CSS, Angular, API Call

Oct 2016 | <https://youtu.be/4pF-X7QQH90>

- Created mobile app allowing users to browse pets available for adoption using an API call to petfinder.com.

RELATED EXPERIENCE

Freelance Graphic Design - Illustrator, Photoshop

Feb 2016 - Mar 2016

- Generated web assets for rickshawbags.com's customizer. visit: xta1.com/assets-video

Production Artist - Illustrator, Photoshop, Salesforce

Rickshaw Bagworks | Jul 2013 - Mar 2015

- Worked closely with our Sales Team, Director of Production, and embellishment houses to deliver the final products our corporate clients envision.
- Delivered comps of branded products for pre-production approval.
